
The Experience of new Motherhood

A Discussion group

February - March

2018

At Melbourne Institute for
Psychoanalysis

Before it happens, motherhood might be thought about, not thought about, hoped for, anticipated or shied away from.

Motherhood as reality might be very different from motherhood as an idea.

This is a space for mothers to think about the experience of new motherhood: their experience, the baby's experience and the couple's experience.

MIP are offering a 4 week group, meeting weekly for 1.5 hours to talk and think together about this.

Dates: 22/2, 1/3, 8/3, 15/3
